

ANTONIN LE CLEI

Profile

Self-employed. I design AI agents and automations, and turn them into products I sell myself: Renderflow, my Shopify theme store, has been live and generating revenue since September 2026. With a background in mathematics and web design, I now want to build systems that hold up in production, within a team deploying AI for its clients.

Qualities

- Independent and rigorous
- Strong organisational skills
- Open-minded

(EREA Toulouse Lautrec High School enrolls 75 % of students with disabilities. It gave me a concrete understanding of disability and absolute respect for everyone.)

- Creative and adaptable

Technical Skills

- **AI agents** — Claude API, Claude Code, Skills, MCP servers
- **Automation** — n8n, Make, Zapier
- **E-commerce** — Shopify, Liquid, custom themes
- **Web development** — HTML, CSS, JavaScript, Next.js, Webflow
- **Search** — technical SEO, structured data, GEO

Tools
